## Estimated Hypertension Prevalence, Treatment, and Control Among US Adults: Tables

For more detailed information about the Estimated Hypertension Prevalence, Treatment, and Control Among US Adults, please consult the following tables.

Table 1. Hypertension prevalence and control estimates among US adults aged 18 years and older, applying criteria from the American College of Cardiology and American Heart Association's (ACC/AHA) 2017 Hypertension Clinical Practice Guideline, by sex, age, and raceHispanic origin-NHANES 2017-2020

| Subgroup | Total | Hypertension |  |  | Recommended Treatment |  |  |  |  |  | Uncontrolled ${ }^{+}$ |  |  |  |  |  | Controlled |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | Lifestyle modification only |  |  | Prescription blood pressure medication and lifestyle modification* |  |  | Among all adults with hypertension |  |  | Among adults recommended medication and lifestyle modification |  |  | Among all adults with hypertension |  |  | Among adults recommended medication and lifestyle modification |  |  |

Data Source: National Center for Health Statistics, Centers for Disease Control and Prevention. National Health and Nutrition Examination Survey (NHANES), 2017-2020.

Definitions: ACC/AHA criteria adapted from Ritchey MD, Gillespie C, Wozniak G, et al. Potential need for expanded pharmacologic treatment and lifestyle modification services under the 2017 ACC/AHA Hypertension Guideline. J Clin Hypertens. 2018;20(10):1377-1391.

Abbreviation: NH, non-Hispanic.
*ACC/AHA 2017 Hypertension Guideline recommends the addition of lifestyle modifications when prescription medication treatment is indicated.
$\dagger$ Blood pressure $\geq 130 / 80 \mathrm{~mm} \mathrm{Hg}$; all adults recommended lifestyle modifications only are considered to have uncontrolled hypertension as their blood pressure is above the threshold.

## Notes:

1 Values may not add up to totals due to rounding.
2 To estimate population counts, we multiplied the estimated prevalence (as proportions) by the National Center for Health Statistics' national population counts for 2017-March 2020, which are compiled from the US Census Bureau's American Community Survey (available at: https://wwwn.cdc.gov/nchs/nhanes/ResponseRates.aspx\#population-totals)

Table 2. Treatment estimates among US adults aged 18 years and older with uncontrolled hypertension* recommended blood pressure medication use applying criteria from the American College of Cardiology and American Heart Association's (ACC/AHA)—NHANES 20172020

| Subgroup | Total Population with <br> Uncontrolled Hypertension Recommended Medication | Recommended Medication, but Untreated |  |  |  |  |  | Treated With Medication, but Uncontrolled |  |  |  |  |  |
